# SEVERE WEATHER ADVICE MESSAGE REDUCED THREAT

The SES advises that the threat from locally destructive winds for exposed or elevated parts of the state south of Port Pirie has reduced.

Although the threat to your safety has reduced, be aware that some risks are still present and you should take care in the area over the next few days.

Check your property for damage. Stay well clear of fallen trees, power lines and other damaged structures. If your property has been damaged do not turn your electricity back on until it has been checked by a qualified electrician. Be aware that debris may be present on the ground.

To view current warnings go to the Alert SA website at [www.alert.sa.gov.au](http://www.alert.sa.gov.au)

For SES assistance during severe weather phone 132 500. If the matter is life threatening call triple zero.

Monitor local conditions and listen to ABC radio for updates.

For what to do in storms check the SES website at [www.ses.sa.gov.au](http://www.ses.sa.gov.au)

**This message expires on:** 6<sup>th</sup> August 2017 at 23:00. **This is the final message that will be issued for this event unless the situation changes.**
