SES distributing sandbags in Port Broughton tomorrow

With more rain and wind expected to impact South Australia tomorrow and Thursday, the State Emergency Service (SES) is distributing sandbags from 9am tomorrow at its Port Broughton unit.

The unit is located on Bute Road, Port Broughton.

Personnel will be on-site at Port Broughton to provide information, including a leaflet, to residents about how to fill and lay sandbags.

While sand is the best option for sandbags, garden soil can also be used if sand is not available.

During severe weather, the SES advises the following precautions:

- do not drive, ride or walk through floodwater
- be vigilant on the roads. There may be a lot of water across roads and there may be trees that have fallen across major roads
- stay away from fallen powerlines. Always assume fallen powerlines are live – they should be reported to SA Power Networks on 13 13 66
- monitor the Alert SA website or download the Alert SA app on to your phone for the latest emergency information from the SES and other agencies
- shelter and secure pets and other animals, and
- keep a close eye on BoM weather reports and listen to your local radio for updates.

Flood and severe weather information is available on the SES website www.ses.sa.gov.au.

Alternatively, you can follow SES Twitter @SA_SES or SES Facebook @SAStateEmergencyService.

For media enquires telephone the SES Media Line on (08) 8211 6176

For SES response in floods or storms telephone 132 500. If the matter is life threatening telephone 000
